“

We are looking for a well-organised, proactive and adaptable individual who is comfortable multitasking, thinking on their feet, and working as part of a small, community-focused team.

Knowledge of sport is not essential. At its core, the Club is a fast-growing business with a wide range of stakeholders and a straightforward management structure.

If you would like a confidential conversation about how your skills and experience could help us build on the success and continued growth of the club, please get in touch.
